

AutoCAD – Basics in English (AUTOCADBS)

AutoCAD is the leading 2D and 3D CAD solution for design, planning, drawing and modeling in architecture and a wide range of engineering disciplines.

In addition to the basic rules of technical drawing, this course also familiarizes you with the crucial working techniques of AutoCAD. You will then be able to create drawings and designs using the appropriate tools and will receive in-depth knowledge to use the AutoCAD application optimally.

INHALTE

- Understanding AutoCAD
- Interface and structure of AutoCAD
- Construction aids
- Drawing commands and variants
- Change commands and variants
- General properties
- Working with layers
- Text editing
- Dimensioning
- Blocks (simple block applications)
- Press
- Tools

ZIELGRUPPE

People or technical draftsmen who want to learn the basics of using AutoCAD.

VORAUSSETZUNGEN

Windows/PC basic knowledge.

ABSCHLUSS

Nach Seminarabschluss erhalten Sie ein tecTrain-Teilnahmezertifikat.

PREIS P. P.

€ 1190,- (zzgl. MwSt.)

DAUER

4 Tage (09:00 - 17:00 Uhr)
